

S. JOSUÉ

ROJAS C.

Software Engineer

I'm a developer with a passion for creating intuitive, user-friendly applications that make users' lives easier. I strive to create beautiful and usable spaces that meet the needs of my clients while also building quality software.

I'm a highly motivated, innovative developer with a strong focus on business application development. I enjoy bringing clarity to complex problems with a people first approach. During the last 6 years I've helped global companies, organizations and start-ups reach business goals with user focused, interactive development.
